

FIREBUGS AT WORK
IN AN OHIO TOWNGREENVILLE IS THREATENED
WITH DESTRUCTION.

One Hundred and Fifty Thousand Dollars Will Be the Loss—Disastrous Conflagration in New York—Pennsylvania Forest Fires—Indiana Town Threatened.

Greenville, Ohio, June 17.—Fire broke out here at 10 p. m. yesterday in a stable in the rear of the Winter Block, surrounded by business houses, and swept several of them, spreading over two squares solidly built up, burning up Mozart's store, Westerfield's wholesale house, three printing offices, the Methodist Episcopal Church, five dwellings, a large livery stable, and damaging several other dwellings and business houses. The loss is estimated at \$150,000. Piqua and Richmond were telegraphed to for assistance. Fire also broke out in several other places in the city and seemed to be the work of desperate characters trying to burn the town. Extra police were ordered out all over the city and greater destruction is feared.

NEW YORK THEATER BURNED.
Causes a Loss of Half a Million Dollars.

New York, June 17.—H. R. Jacobs' Third Avenue theater was destroyed by fire early yesterday morning. The fire was discovered by a passer-by, who immediately gave the alarm. At 1 o'clock the whole theater was a sea of flames. The whole available force of the fire department was fighting the flames, and a crowd of about 5,000 or 6,000 people were gathered. The theater has been condemned as a fire trap for some months. It will be a total loss. There will be something like half a million loss to the theater and adjoining property.

Pennsylvania Forest Fires.
Bradford, Pa., June 17.—Forest fires between Mount Jewett and Rittville have destroyed a vast amount of wood and timber, owned by E. K. Kane. The conflagration is in the center of the Rittville oil district, but at the time of receiving the last report from that vicinity, no oil well rigs had been destroyed. Wires are down and all telegraphic communication has been cut off. A force of 200 men has been fighting the fires since yesterday afternoon and it is thought they are under control. Two fires are burning in the lumber district at Sugar Run. Considerable timber owned by Hammond and Andrews has been destroyed.

Indiana Town Threatened.
South Bend, Ind., June 17.—At 6 o'clock last evening fire broke out in the livery barns of John B. Shank and for a time threatened the business portion of the city. Shank's livery stable, a three-story brick, was completely destroyed with all its contents, including fourteen valuable horses, carriages, etc. Loss \$15,000, partially covered by insurance. The fire spread to the new hotel of Lewis Johnson under construction, which was partially destroyed. Loss, \$5,000; no insurance.

Ohio Village in Danger.
Toledo, O., June 17.—The village of Maumee, ten miles north of here, narrowly escaped destruction by fire yesterday. Shortly after three o'clock fire broke out in a harness shop on the main street of the village and soon got beyond control. The Toledo fire department was asked for aid and the detachment from this city succeeded in conquering the flames after five stores and four dwellings had been destroyed. The loss is estimated at \$50,000, with half insurance.

TO DISPOSSESS SETTLERS.
Serious Condition of Affairs in South Dakota.

Chamberlain, S. D., June 17.—By the location of a boundary line sixty settlers are found to be with their crops and improvements, located in the Rosebud Indian reservation. This is the serious condition of affairs that exists in Gregory county, south of here; a condition of affairs that may result in a bloody clash between the settlers and the Rosebud agency Indians. Up to February 10, 1890, Gregory county was a part of the Sioux reservation, but on that day was included in the 11,000,000 acres relinquished by the Sioux and thrown open to white settlement. The soil in that section is first-class and it was not long until practically every acre of what was supposed to be the ceded land in that county was surveyed. As most of the settlers are poor it will be a great hardship to them if they are compelled to move at once and thus lose their crops. To prevent this the squatters have held a meeting and petitioned the government authorities to permit them to remain where they are until their crops are harvested.

Opposition to Starbuck.
Portland, Ore., June 17.—W. H. Starbuck, president of the Oregon Improvement company, is in the city to attend the annual election which will take place next Monday. The opposition to President Starbuck's management has centered upon Elijah Smith as their candidate for president. A prominent railroad man says that J. J. Hill, president of the Great Northern, is using his influence in favor of the election of Mr. Smith, and if successful he will be able to secure the use of valuable terminal grounds in Seattle which the Oregon improvement company controls.

Collied During the Fog.
Cleveland, June 17.—The master of the steamer Bulgaria telegraphed from Ashland that he collided with the steamer Vega in a fog on Lake Superior Thursday night. The Bulgaria was not injured, but Capt. Frank Brown of the Vega telegraphs from Sault Ste. Marie that his boat will have to go into dry dock.

BOUNTY FOR SUGAR.

Germany Will Continue the Rate Now in Force.

Washington, June 17.—Consul Muth, at Maderburg, Germany, has sent to the state department a report on the preliminary sugar law of Germany. He says the German government has come to the relief of the beet sugar industry by submitting to the reichstag a preliminary law which provides that until July 1, 1899, the rate of export bounty now in force shall continue. Under the sugar law of 1891, the rates would have been reduced after Aug. 1, 1895, and after Aug. 1, 1897, the export bounty was to have been discontinued. Germany, he says, now pays a lower export bounty than any other competing country, and a reduction would have been suicidal. The country is now in a deplorable state, and nothing will save it from serious loss unless growth and unnatural extension are checked. Germany will probably make another attempt to abolish or regulate the bounty system internationally, but Mr. Muth doubts if a satisfactory understanding can be reached. Many conferences have been held recently with a view to improving the sugar interests, but as yet preliminary law continuing, the present bounty will enable the government to thoroughly consider the sugar question. A new law will then be submitted, which will answer the various demands of local interest throughout the empire.

London, June 17.—A number of delegates to the third biennial council of the World's Women's Christian Temperance union occupied pulpits in London Sunday. The passengers were terribly shaken up and thrown about, but escaped serious harm. The wreck occurred through the negligence of an operator in giving orders.

It is asserted that at least 2,000 employees will refuse to begin work and 100 or more have obligated themselves to report for picket duty. It is rumored that Hungarians, Italians and Bohemians will be sent from Cleveland and Toledo. The workmen have asked for a restoration of 10 per cent cut in wages, made in April, 1894, through a committee and have been refused.

FIGHTING BEGINS

British Ship is Removing The Foreigners From Taiwan—Spain Will Take Energetic Measures to Crush The Revolt in Cuba—News of Interest By The Cable.

A telegram received from Cuba says that the Spanish troops have repulsed a rebel attack upon the village of Paredes Spiritus.

A SMALL VICTORY.

Spanish Troops Defeat a Band of Cuban Insurgents.

Havana, June 17.—A small band of troops at Isabel Catolica went in pursuit of the insurgents and found their cavalry upon the river at Gua. The troops charged and delivered a hot fire, which obliged the insurgents to retire. They lost their arms and horses, besides four of their number dead and six wounded. Of the troops, one was killed and two were wounded. Volunteers have left for Bacuranos and Boca Ciega. It is rumored that a schooner has disembarked arms which have been hidden in the swamps and caves between Matanzas and Sagua la Chica. At Campechula, near Manzanillo, ten insurgents have surrendered. Five insurgents, negroes, put fire to the village of San Vicente de Cuba and burned three houses. A small band from San Antonio, Banos and Havana closely pursued them. Favor is being shown to American capital, and the government remits all duties on the industry of mining and metallurgy in Cuba.

CHINA WANTS MORE MONEY.

Immense Sum Needed to Pay Indemnity to Japan.

London, June 17.—It is rumored that China has not yet agreed to the Russo-Chinese loan operation, fearing that the terms of the guarantee will make it difficult to obtain the remainder of the money required for the indemnity. A dispatch to the Times from Paris says that the agents of the syndicate have started to St. Petersburg to sign the Chinese loan agreement. The Standard, in its financial article says that it is assured that the Russo-Chinese loan is destined solely to indemnify Japan for abandoning her claims to the Liaon Tung peninsula. Therefore China must still raise \$30,000,000 for the general indemnity, which will pledge over two-thirds of her entire customs revenue.

Religious Affairs in Mexico.

Guatemala, June 17.—The efforts of the Jesuits to intrench themselves in Mexico are viewed with interest here. It is lamented that public men generally declare themselves atheists, agnostics, or materialists. One journal says there can be no hope of public morality or reform as long as religion has no hold upon the leading men. Mexico's tolerance of the Jesuits is explained here on the theory that the government is allowing the rupture to grow and increase inside the Catholic church, as a majority of the Mexicans are friendly to the Franciscans and Carmelites, while the wealthy minority favor the Jesuits.

Peru Makes Apology.

Lima, Peru, June 17.—Upon the demand of the British minister to Peru for reparation for the insults offered by a government official to Vice Consul Fry, in Lambayeque, in September last, Minister Candamo issued an order expressing regret for the occurrence and directing that the offending official call upon Minister Fry and apologize. The British minister expressed himself as satisfied with the action taken. The Opinion National advises the government to cancel Vice Consul Fry's exequatur.

May Dissolve Parliament Early.

London, June 17.—The Standard considers that the reverse to the government in the Invernesshire election will compel the present government to dissolve at the first opportunity. The Times says that it is a grave question whether the maintenance in office of a weak and divided administration, distracted by the country and destined to early extinction, does not constitute a serious danger, in the existing state of Great Britain's foreign relations.

In the meantime another boat containing four men, had filled and sunk, but the occupants reached shore in time.

NEW YORK FARMER IS MURDERED

Unknown Assassin Kills Him and Hides The Body—Other Crimes.

Erie, Kas., June 17.—The body of Farmer Peterson, a bachelor about 60 years of age, who lived alone, was found by neighbors, hidden in the manger of his barn. The body was covered with hay and old horse blankets were thrown over the hay, as if to cover up all traces of the crime. The neighbors had missed seeing the old man around for about a week, and, becoming suspicious, went to his house. They found it unlocked and no one in. The condition of the furniture indicated that there had been a great struggle, and the searchers went to the barn, where they soon located the man's body. The old man is thought to have had considerable money, some of which he had intended to invest in a few days, but none of it can be found. There is not the slightest clew to the identity of the murderer.

WILL BE A BIG FIGHT.

Indiana Liquor Dealers and Temperance People Lock Horns.

Indianapolis, Ind., June 17.—This week will witness the inauguration of open warfare between the liquor dealers and the law and order leagues of this state. The Nicholson bill, with its sweeping changes, become operative, and the enforcement of the law will be bitterly resisted by Indiana saloonkeepers. Twenty cities and towns in northern Indiana have reported that almost without exception no steps have been taken by liquor dealers to obey the law, which is accepted as significant of a prolonged contest in the courts. It is further stated that in a number of counties in northern Indiana the temperance people expect to drive every saloon out within one year under the local option section of the law. Legal opinion is to the effect that the law is unconstitutional, and consequently inoperative. In the central and southern part of the state the situation is similar.

Find Seven Skeletons.

Brighton, Col., June 17.—The skeletons of seven persons, four adults and three children, have been exhumed in a field a mile and a half from here, near an old trail where it crossed the Platte river. The character of the skulls indicates they were white people, and it is believed they are the remains of a murdered party of emigrants, probably a family massacred by Indians and buried by subsequent immigrants. No means of identification were discovered.

To Celebrate Its First Century.

Indianapolis, Ind., June 17.—The year 1890 witnessed the separation of what is now the state of Indiana from the northwest territory of Indiana, and it has been decreed that the centennial anniversary of this first step towards statehood shall be fittingly celebrated by the giving over of a week or more to displays showing the march of progress during the hundred years of separate and distinct existence.

It begins on July 16 and continues from day to day until finished, and will be held in the city of Chicago. Each disputant is to have ten assistants, and the "sound" money committee of the New York Chamber of Commerce, at Mr. Horner's request, will send five men to help him, in conjunction with five other experts from the west and south. Mr. Harvey is arranging for ten of the strongest advocates of free coinage in this country to assist him. The rules and regulations governing the conduct of the debate and the other details are being arranged by Lyman J. Gage and Howard S. Taylor, of Chicago, the referees chosen respectively by Messrs. Horner and Harvey.

FRANCE AND RUSSIA.

No Written Treaty Between the Two Great Powers.

Berlin, June 17.—It is positively stated that M. Hanotaux's recent speech referring to a Franco-Russian alliance has led to the interchange of official dispatches between the imperial chancellery and Count Lobanoff Rostovsky. The Russian minister of foreign affairs opened the correspondence with an intimation to the effect that no written treaty alliance existed between France and his country. As if to give more point to this communication, the czar has, it is said, given secret orders that the officers and men of his squadron at Kiel shall not attempt to make any demonstration indicating sympathy with the French sailors.

The Manitoba School Question.

Winnipeg, Man., June 17.—In view of Premier Greenway's bad health, it is unlikely that he will make more than a ten minutes' speech on the school question this afternoon. But had he been in his usual condition physically the house would have heard a two-hours' peroration on the subject. The leader of the opposition will, it is expected, move an amendment to the motion of the premier, and the debate on the remedial order may take two or three days. The attorney general will speak at length.

FOR THE COLIMA'S LOSS.

Heavy Damages Commenced Against the Pacific Mail Company.

San Francisco, Cal., June 17.—Three suits for damages aggregating \$150,000 are to be filed against the Pacific Mail company as the result of the loss of the steamer Colima. One suit is to be brought by Charles Thornton, whose wife was a passenger on the Colima. Another will be brought by Mrs. Thomas Gray, whose husband was in charge of the refrigerator room, and the third complaint is by Capt. C. C. Struckman, whose mother was drowned. The complaints allege that the cargo of the steamer was badly stowed and that the officers showed neglect in not giving the passengers warning of danger, so they could have taken measures to save their lives. It is charged that life preservers were not given to the passengers and that there were not enough life preservers on board to supply all who needed them.

FARMERS RAISE THE CATTLE.

Butchers and Packers' Magazine Denies Story of Scarcity of Beef.

St. Louis, Mo., June 17.—The Butchers' and Packers' Magazine has the following to say concerning the cattle supply: "Articles have appeared in leading daily papers of New York and Chicago, showing that with the disappearance of the vast ranges cattle would become scarce and beef become a luxury. This is fallacious reasoning, for, as a matter of fact, the beef of the country comes from the farms, not the ranges. There are thirty-one farm states, with a total area of 1,168,000 square miles, and according to the report of the United States agricultural department in January, 1895, the estimated number of cattle in those states was 30,060,472. The range states and territories, seventeen in number, contain an area of 1,794,977 square miles and in January, 1895, the estimated number of cattle was only 20,808,373."

MR. GOOKINS DENIES THE WHOLE STORY

HE SAYS THE ULLER YARN IS
NOT TRUE.

There Was Nothing Between His Pupils and Himself and Her Husband Was Unduly Agitated About a Trifling Matter—The Story Told By The Chicago Papers.

And now George B. Gookins fights back.

It was pretty easy for E. J. Uller to charge the former Janesville man with all kinds of things and it didn't seem very hard for him to smite the professor on the nose. But the latter says it was a mistake.

Professor Gookins sings bass in the choir of the Second Congregational church at Rockford and to that town he hied himself after the fracas. Then the church people demanded an explanation. He said the assault was unprovoked. He gave a dinner party Wednesday evening at his home at which Mrs. Ullersang. He claims her husband became jealous over compliments paid her and left the house in anger. She returned home later and when Uller came he forced her to leave the house, refusing to allow her to take money or wraps. The next day Mrs. Uller decided to return to her parents at Titusville and Gookins accompanied her to the station to buy the ticket. There the row followed. Gookins denies that he has paid the woman any particular attention, she being merely one of his musical pupils.

The Rockford church people believed his story and he sang as usual in the choir.

The Charges Made.

The story they told about him was printed by Chicago Evening Post with portrait accompaniment as follows:

"Professor George B. Gookins, the bon ton voice culture instructor at 103 Ashland boulevard, is nursing a bruised cheek today in Rockford, whither he departed to give his weekly lesson to prominent young society ladies of that city. The professor will return to Chicago Tuesday unless he concludes that Rockford is a safer place for him. Last evening he had an encounter with E. J. Uller, the husband of Angeline Ruth Uller, at the Dearborn street depot, where the wife and her teacher were just about to bid each other adieu, she to go to her mamma at Titusville, Pa., and he to reside at Winnebago County.

"Mr. and Mrs. Uller have been living at 555 Jackson boulevard for about a year and a half, and Mrs. Uller had spent her leisure in the cultivation of her voice under the direction of Professor Gookins, who has a class in the swell set of the neighborhood of Ashland and Jackson boulevards. Gookins lives with his father and mother in the top flat of the old club house at 103 Ashland boulevard, and his mother left for a visit east about a week and a half ago. Mr. Gookins, Sr. is a jeweler at Oak Park, and usually arrives home about 10 or 11 o'clock in the evening to join the little social parties which his son likes to have around him.

Social Time at the Flat.

"Since Mrs. Gookins' departure the flat has seen some gay times, it is said, for her son has had company every evening until last night, when, owing to the intended departure of Mrs. Uller, the usual gathering was foregone. Wednesday evening Mr. and Mrs. Uller and a commercial traveler friend were the guests of Gookins senior and junior. After dinner, owing to the pleasantness alleged to have passed between Mrs. Uller and the professor, her husband left for his home in wrath. Mrs. Uller could not go home alone, and so decided to remain away for the night. The next day her husband called twice at the place where she was stopping, but each time, he claims, she locked herself in the bathroom and gave the maid orders to say that she was not there. A reconciliation seemed impossible; so Mrs. Uller decided to go home to her mamma last evening—but she didn't.

About dusk her husband was informed of her intended trip. He hastened to the railway station and found Professor Gookins in the act of buying 'a first class ticket to Titusville.' This the husband prevented by a blow on the point of Gookins' cheek, which threatened to spoil his voice forever. Gookins responded by a blow on the eye-brow of the frate husband, following which a general scramble took place, in which several belated travelers were mixed up in attempting to purchase their transportation.

Separated By a Policeman.

"A patrolman was called and separated the angry men. Gookins returned to the house of his father, and the husband and wife disappeared in opposite directions and have not been seen together since. About 12 o'clock last night two men called at the Gookins flat and were received with a 'ussing,' so the people in the other flats say, and another outburst was threatened.

"This morning when a reporter rang the front door bell of the flat the 'professor' took his leave by the rear entrance, telling the maid that he would return in time to catch the Rockford train, either at 10 or at 2 o'clock, if the reporter remained that long. The flat is daintily furnished. Etchings and paintings of noted composers adorn the walls. Photographs of the professor may be seen in every corner, and pictures of his pupils adorn the end and shelves, side by side with beautiful actresses and singers.

"The professor did not return after

being absent about an hour, so, in the opinion of the maid, 'he probably took the 2 o'clock train for Rockford.'

THE FIRST MATINEE COMES OFF FRIDAY

MANY ENTRIES IN THE ARROW
CLUBS RACES.

Two Diocesan Council Delegates Ride To Milwaukee—Road Race Record to Crystal Springs in Reduced—Run to Geneva Lake Planned—News for the Cyclers.

The first racing matinee to be given by the Arrow Cycling club, promises to be a success in every way, and when Friday evening comes a good field of riders will be ready for the word. As none but local riders will be admitted, it promises to be all the more interesting and most of the young men who have made good time, while alone on the road, will now have an opportunity of showing their true colors in company. The handicaps have all been made by experienced men who know the real merits of each rider, and the greatest local race ever given in Janesville will, if the weather permits, take place on the fair grounds that evening.

Two Janesville men who will attend the Episcopal Diocesan council at All Saints' Cathedral in Milwaukee will not go on the train. They are Harry Ransom and Roy Stewart and they left for the Cream City on their bicycles yesterday afternoon. They took a moderate pace, and expected to reach the Cream City some time this morning and be on hand for the opening session of the council, which convenes tomorrow, as delegates from Trinity church. They will probably return on their wheels also.

Two young men rode up in front of the Myers House yesterday afternoon, and from the looks of their wheels, the roads must have been rather dusty. They registered as A. H. Meyer and G. S. Ellsworth, from Terre Haute, Indiana. They left home last Wednesday, and were on their way to Appleton and Oshkosh, where they will visit relatives. They arrived in the city yesterday from Rockford, and after a few hours' rest, left for Madison, where they expected to spend the night.

FOUR riders started yesterday afternoon to try and beat the road race record to Crystal Springs, the record being twenty-three minutes. The Milton Avenue road was selected as the route, and they reached the county farm in nineteen minutes, making the entire distance to Crystal Springs in twenty-one minutes. The riders were J. G. De Long, W. M. Pfennig, G. O. Ford and R. H. King.

CLARENCE FISH was in the city yesterday, riding up from Chicago on his wheel. He was the guest of his cousin Ray North, and returned home on the train, as on the way here he broke twenty-one spokes in his machine.

THE next ride to be taken by the Arrow Cyclers will, in all probability be to Geneva Lake. A number will start Saturday afternoon at 4 o'clock so as to reach the lake at 7:30. They will return home Sunday afternoon.

JAMES ROSE and F. M. Nolan have both entered in the five mile race for Friday. Both being strong riders, a few of the weaker ones will need to be in good trim or they will get left.

ARRANGEMENTS are now being made for a game of ball to be played in this city in the near future between the Arrow Cyclers and the Rockford Cycling club.

No long runs were taken yesterday by local wheelmen. The trip to Rockford and back a week ago was enough to last at least two weeks.

Two local cyclers expect to spend their week's vacation by taking the vestibule to Minneapolis, and return home on their wheels.

GEORGE H. OSGOOD and Henry Kline took a spin to Clear Lake yesterday, and made the return trip in an hour and a half.

B. L. WATT and C. W. Bliss rode to Clinton yesterday, making the distance of fourteen miles in about two hours.

A NUMBER of cyclers passed through the city yesterday on their way from Beloit to Evansville.

A Most Magnificent Hairloom

Health. No gem in tiara or coronet is so precious. Per contra, a hereditary tendency to disease, often proves a fatal legacy, since the most trifling causes may fertilize the latest germs of ill health, and render the fruitage deadly. An inherent transmitted weakness of the physical constitution is more effectually opposed and counteracted by Hostetter's Stomach Bitters than by any other safeguard. Digestion and assimilation promoted, due biliary secretion, action of the kidneys and bowels insured, are so many guarantees of permanent health, and these are the consequences, among others, of the importance, of a resort to the Bitters. This medicine also prevents and remedies malarious complaints, nervousness, chronic insomnia, rheumatism and neuralgia. Such warnings as loss of appetite and sleep, too, should not be disregarded. The Bitters will restore both without fail.

CHANGE THE NAME OF A STREET.

"Sarah" Will Give Place to the More Euphonic "Prairie Avenue."

A number of Sarah street residents are talking of changing the name of that beautiful street, and "Prairie avenue" has been suggested as more appropriate. By the way that street has been greatly improved during the past few years, perhaps more than any other street in that part of the city, many handsome residences having been erected so that the street is well built up from Glen street north to Benton avenue. Property owners now want the water main extended from Walker street to Benton avenue.

WILL BUILD.

They Claim That the Institutions of Learning Are all a Mile Distant and Appoint a Committee to Look the Matter Up—Gossip From That Neighborhood.

Spring Brook people have been agitating the question of a school house for some time. They want it located in that part of the city as they claim the city schools are too far away. The subject has been discussed at some length and a special meeting was held at the grocery store of Samuels & Kuehn at which a committee of two men were appointed, consisting of Edward Kirk and William Hinckley to canvass the addition and tell the common council of the situation. A good sized lot will be donated, if a school building can be obtained for the nearest school is about a mile away. It is estimated that one hundred and twenty-five children now live in that part of the city.

Mr. Peterson and Mr. Fowler, two friends, were conversing in the parlor of the latter.

"Is your wife going to leave town?" asked Peterson.

A Daring Forgery.

A neat forgery was recently committed by a Parisian criminal, one Altmayer, which in its adroitness and audacity was worthy of "Jim the Penman" himself.

The accused had lately had several hearings at the Palais de Justice before M. Villiers, juge d'instruction. Several times during these hearings M. Villiers was summoned from the room for a few minutes at a time.

During one of these absences the culprit contrived to get possession of a sheet of paper and an envelope with official printed heading, and also to affix the official seal. Then he drew up at his leisure a document ordering his own immediate release, counterfeiting with rare skill the judge's signature.

On quitting the court one day he handed the letter thus prepared to the sentinel stationed in the corridor and remarked in an offhand manner, "The judge wants you to carry this letter immediately to the director of the Mazas prison." The soldier, suspecting nothing, took the letter and accompanied the prisoner to Mazas. A few minutes later Altmayer was summoned to the director's office and was informed that he was a free man.

With an outburst of simulated joy and surprise he at once took his departure, and as the fraud was not discovered until the following day he had plenty of time to get beyond the reach of the clutches of French justice.

Why smoke and spit your life away? Why suffer from dyspepsia, heartburn and drains on your vital forces?

Stop using tobacco, but stop the right way. Drive the nicotine from your system by use of this wonderful remedy.

Narcoti cure is warranted to remove all desire for tobacco in every form, including Cigar, Cigarette and Pipe smoking, Chewing and Snuff Taking.

Use all the tobacco you want while under treatment, and in from four to ten days your "hankering" and "craving" will disappear—the weed won't taste good. Then throw away tobacco forever.

Narcoti-Cure is entirely vegetable and free from injurious ingredients. It never fails to give tone and new vigor to the weakest constitution.

Remember Narcoti-Cure doesn't deprive you of tobacco while effecting a cure; doesn't ask you to buy several bottles to be entitled to a guarantee; doesn't require a month's treatment; and finally, doesn't enable you to stop tobacco only to find yourself a slave to the habit of tablet chewing.

With Narcoti-Cure, when you are through with tobacco you are through with the remedy. One bottle cures.

HUNTINGTON, Mass. Mar. 18, 1895.
The Narcoti Chemical Co., Springfield, Mass.

Gentlemen—I have used tobacco for over twenty-five years, chewing and smoking every day from 7 a. m. to 9 p. m. stopping only for meals.

On Monday, February 4, I called at your office in Springfield, and bought a bottle of the Cure which I used as directed and on the tenth day the desire for tobacco had left me and has not returned. I did not lose a meal while taking the Cure. My appetite has improved and I consider Narcoti-Cure a grand thing.

Very respectfully,
CHAS. I. LINCOLN.

Mr. Frank H. Morton, of Chicopee Falls, Mass., late Inspector of Public Buildings for Massachusetts, says: I used tobacco for twenty-five years, and was a confirmed smoker. In just eight days' treatment with Narcoti-Cure I was through with tobacco, in fact the desire vanished like a dream.

Very Respectfully,
FRANK H. MORTON.

Her length was 680 feet; width, 83 feet; depth, 33 feet, and draft, 28 feet. The motor power was furnished by four screws and four paddles driven by eight engines representing collectively 10,000 actual horsepower. The engines were designed to drive the monster ship 16½ statute miles per hour. At 30 feet draft the vessel displaced 27,000 tons. In laying the Atlantic cable the Great Eastern proved of service. She was dismantled and broken up in 1888.

DEATH OF DR. PALMER.

In the death of Dr. Henry Palmer the city has lost one of her most enterprising citizens, and the profession a man who occupied an enviable position. Possessing broad intelligence and progressive ideas, he never faltered, but was ever at the front in every enterprise that contributed to the welfare of the city that he was always proud to call his home. His name will live as a sacred memory in the homes of many people, where his presence inspired confidence and hope, and the imprint of his character is indelibly woven into the growth and development of the city, as a constant reminder of his many sterling qualities of mind and heart.

GOLD BUGS.

The senseless and inexcusable froth and bluster, about the gold bugs, and the banks of the country is characteristic of the men who cherish antipathy against capital and who denounce it as the worst enemy of labor. Aside from the few political demagogues whose aim is pure selfishness and personal gain, the sentiment is entertained by a class of writers and speakers hopelessly in debt, or so poor that their next month's living is an unsolved problem. The distribution of wealth is in no sense arbitrary. Every avenue of business or of labor, is open to the broadest competition. Wealth, as usually acquired, is not of mushroom growth. It represents industry and economy combined with intelligence, and requires patient and persistent sacrifice to the one purpose, accumulation. Of the 3,000 homes in Janesville, at least 2,500 of them belong to this class of capitalists, men who, by the savings of a life time have secured money enough to own a home. What is true of Janesville in this respect is true of the country at large, so that the wealth of the country is more evenly distributed than the wealth of any other country on the globe. In every city, town or village, in fact in all prosperous farming communities are found men who combine with other qualifications, a certain talent known as tact, men who possess the courage and judgment to grasp the opportunities of life, and make the most of them. Everything they handle is turned to profit. They start in life no better equipped than thousands of other men, but they succeed in winning the prizes. As a result capital accumulates; railroads are built, factories spring into existence, commercial enterprises are developed; banks are founded and the great network of business and commerce throbs with life and activity, a blessing to the nation, and the world at large. In seasons of business depression, it is natural, with our mixed population, that anarchy, socialism, populism and various other apostles of discontent should come to the surface, and clamor for a distribution of wealth, and free silver or any other kind of free money, that to their distorted vision can be secured without the only honest equivalent, labor. The demagogue who becomes the mouth piece of this discontented faction, denounces the banks and banking system of the country, ignoring the fact that a bank is simply a depository of trust funds, owing its existence and prosperity, not to the amount of capital invested by any one, or any dozen men, but to the confidence inspired, by judicious management and rigid integrity. The man, or the set of men, who malign and abuse the well established banks of the country, calling them gold bugs and bloated bond holders, deserves a front seat in a first class lunatic

asylum, where the wheels in the head are permitted to run loose. On question of finance the banker and the capitalist ought to be good authority, the same as the attorney or physician on the profession that he represents. The banks and accumulated capital of the country, are a unit on the question of free coinage of silver. They substantiate their position, by clear and well defined arguments, pointing out the quicksands and danger that would result to individual and national prosperity. They are rewarded by the insane and fanatical cry, "Gold bugs!" "Beware of the wily banker." It is about time that a halt was called on this kind of nonsense.

Fair Shopper (to clerk, who has shown her every piece of goods in the store)—Well, I don't see anything here that suits me. I'll go down to Yard & Tapeley's and see what they have. "I owe more comfort," said Mr. Johnson, "to my shoemaker than I do to any other man."

"Why, how is that," said Mr. Billings, "when you are always complaining about tight shoes?"

Cholly—Anything new by way of cocktails?

Barkeep—Yes. "The fool cocktail" is very popular just now.

Cholly—Give me one. (Drinks it.) Well, I don't see anything very stupendous about that.

Unnecessary Excitement.

Giving Her Encouragement.

"Now, tell me," said Miss Flatnote, in a compliment-courting tone, "do you think my singing voice is at all adapted for the stage?"

"Certainly, mademoiselle," replied the professor, "admirably adapted, and for a very difficult class of stage work."

CUTTING REMARKS.

Sociological.

Watts—I'll bet that if women were allowed the ballot we would have socialism in less than ten years.

Not a Cordial Welcome.

Mr. Borem, who attends social gatherings even when he is not invited, showed up at an entertainment at Upper crust mansion.

Mr. Borem—I am a little late. I expect I am the last one to arrive.

Mrs. Upper crust—Yes, Mr. Borem, you are the last one I expected to see.—Texas Siftings.

Brotherly Forethought.

Mother (coming into the nursery, in horror)—What on earth are you doing, Bobby?

Bobby (coolly)—Why, pa says everybody's got to eat a peck of dirt before he dies, an' I thought I'd give the baby his'n now, so's he'll have it et before he grows up.—Puck.

BURGULARS VISIT THE HOME OF A. A. JACKSON.

Mr. Jackson Heard The Prowler In the Room and Thought It Was His Son Will, Until He Found the Latter Asleep and the Pantry Window Open.

Hon. A. A. Jackson was much surprised this morning when he found that he had talked with a burglar last night, without knowing the character of his visitor.

It was about 2 o'clock this morning when Mr. Jackson was awakened by someone in his room.

"Hello, Will," said he, "What is it you want?"

Mr. Jackson had noticed the man a few moments before, but in the darkness could not clearly identify him, but supposed his son Will had entered his room to obtain some clothing from the closet. As he spoke, however, the man hastened out of the room and down stairs, stumbling and apparently falling over something. Mr. Jackson hurriedly got up and went down to see what the trouble was. The doors were all fastened, but he could see no one. He then went to his son's room and found Will in bed, the son saying he had not been up. A survey of the house followed, and Mr. Jackson discovered that his trousers were missing and the pantry window was open. Early this morning his trousers and a bunch of keys were found in the yard of a next door neighbor. The burglar obtained no booty.

THE JOURNEY OF LIFE IS ENDED

Mrs. J. E. Jucker.

Fred S. Woodruff received a telegram this morning informing him of the death of Mrs. J. E. Jucker whose demise occurred at Chicago last night. Mrs. Jucker will be remembered by Janesville people as Miss Susie Jones. Her home was formerly at Fond du Lac and each summer found her the guest of Mr. and Mrs. H. S. Woodruff on Buckston farm. For some time past she had been suffering with Bright's disease which complaint was the cause of her demise. Miss Jucker's sister, Mrs. Robert Emmons, died in Chicago about four weeks ago but the fact was kept from Mrs. Jucker for fear that the news would hasten her demise. Mrs. Emmons was also well known here as Miss Alice Jones.

Mrs. Annie M. Mitchell.

Mrs. Annie M. Mitchell, wife of E. W. Mitchell, 750 West Lake street, died at her home in Chicago, last Thursday and the remains were brought here and interred at Mount Olivet cemetery Saturday. Mrs. Mitchell was the daughter of Joseph Ward of Footville and was thirty-nine years old. She was born in Rock County and resided here until 1874. Among those who came to Janesville with the remains were E. W. Mitchell and four children, Mr. and Mrs. P. S. Ward, Lawrence Ward, Joseph Ward, Officers Hugh B. Ward, Wm. Keegan and Andrew Vail, and Miss Mary Ennis of this city.

Mrs. F. H. Bemis.

Mrs. F. H. Bemis, of Footville, died Saturday morning. A husband and two boys are left to mourn her demise. The funeral will be held from the house at 2:00, and from the church at 2:30 o'clock tomorrow afternoon.

SMALL BOY'S CHEST CRUSHED BY HOOF

RODNEY RICHARDS TRAMPLED ON BY A HORSE.

Animal Knocked Him Down And Stepped on Him While Defending Her Colt From Fancied Harm—James Anderson, a Bicycle Rider, Run Over by a Wagon.

Little Rodney Richards was snatched from underneath a horse's hoofs this morning, with the blood oozing from his mouth and nose and life nearly extinct, and was carried into the house by his father, Joseph Richards.

The little boy, who is only seven years old, this morning went out into the barnyard with his father. The father let him hold a brood mare which had a young colt, while he went into the barn to do some chores as the little boy was holding the animal, another horse came up, and the mare, fearing harm to her colt, made a vicious lunge at the approaching horse. In doing so knocked the boy down, and before he could scramble away the mare had trampled upon his chest. A messenger was sent to the city and Dr. E. F. Woods hurried to the scene to attend to the little sufferer.

"The boy is very badly hurt," explained Dr. Woods when he returned. "While no ribs are broken I think he is injured internally, perhaps fatally, as considerable blood flowed from his mouth and nose."

Mr. Richards resides on a farm about three miles west of the city on Mineral Point avenue.

Bicycle Rider Is Hurt.

People who saw James Anderson run over by the United States Express wagon this morning had no idea that Anderson would emerge from the wreck alive but he did. Anderson was riding his wheel down Milwaukee street at a good rate of speed just as E. J. Bennett drove away from the Bee Hive store with the heavy express wagon. Neither could avoid the collision and Anderson ran into the horse, striking the animal squarely in the breast. The shock threw Anderson from the wheel and an instant later people saw him roll under the horses feet. One of the animal's shoes inflicted a gash over Anderson's eye and before he could get out of the way, both wheels of the wagon passed over his body. At first it was thought that Anderson was dangerously hurt, but Dr. Hughes who attended him found that his injuries were less severe than one would expect. Anderson is a baker employed by Beaumont DeForest. His wheel was wrecked.

THEY MARKED "CHILDRENS DAY"

Interesting Exercises Held at the Court Street Church Sunday.

Court Street church was beautifully decorated yesterday with flags, bunnings, evergreens, cut flowers and potted plants, the occasion being Children's day. In the morning, ten candidates received the sacrament of baptism. The evening service was conducted by the children and young people of the Sunday school, assisted by the church choir. The program included recitations and songs by the infant classes, readings and declamations by older members of the school. Mrs. O. H. Brand favored the congregation with one of her choice selections. It is claimed that the evening services was one of the most interesting ever held in the church.

POOR WIDOW GIVEN A GOOD HOME.

Mrs. Baumgard of Beloit, Taken To The County House.

Mrs. Baumgard, a Beloit widow who is very sick, has been taken to the county house and her three children, aged respectively 4, 7 and 10 years, were taken to the Catholic Children's home in Milwaukee by Marshal Appleby and his wife. It required a great effort for Mrs. Baumgard to part with her children, but it seems best for all concerned that they should go to the school where they will be cared for.

DETAILS ARRANGED FOR THE FUNERAL

ALL DO HONOR TO DR. HENRY PALMER.

The City Physicians Will Attend the Services Tomorrow Afternoon In a Body and Many Societies Call Special Meetings To Take Action On His Death.

The funeral of Dr. Henry Palmer will be held from the home, 115 Madison street, at 1:30 o'clock tomorrow. Services will be conducted by Rev. Dr. M. G. Hodge, of the Baptist church.

The funeral will doubtless be a very large one, as all the city physicians will attend in a body; and the G. A. R., Elks, Business Men and other societies have meetings called, as will be seen in another column, to take action on his death. The physicians decided to attend the services at the meeting held in Caledonian hall on Sunday afternoon, which was attended by every physician in the city except two, and they were unavoidably out of town. Dr. James Mills was chosen chairman, and Dr. James Gibson secretary.

On motion of Dr. J. F. Pember, it was voted that the physicians of the city tender their services to the bereaved family, and that they attend the funeral in a body.

Dr. J. B. Whiting eulogized Dr. Palmer, considering him one of the strong men of his time, even wonderful in some respects. The "Iron Ruler" of Germany, he said scarcely excelled the doctor in persistence, determination and force of will.

To Adopt Resolutions.

On motion of Dr. W. H. Judd, the chair appointed a committee of three to draw up resolutions of respect and condolence, have the same published in the city papers and furnish a copy to the family.

On motion of Dr. J. F. Pember, Doctors Q. O. Sutherland, E. F. Woods and James Gibson, were appointed a committee to select floral tributes, and the same to act as a committee to attend to the matter of conveyance on the day of the funeral.

The following telegram was received from Recorder A. Ross Houston, of the Royal Legion, Milwaukee, this morning, addressed to Colonel W. B. Britton and Major Edward Rager:

Colonel W. B. Britton and Major Rager—Give all the honor you can for companions of the Royal Legion to attend surgeon General Palmer's funeral. Express my sympathy with the family. I will send a floral emblem. A. ROSS HOUSTON, Recorder.

Esteemed By Chicago & N. W. Officials.

The following dispatch from Chicago to the Milwaukee papers shows the esteem in which Dr. Palmer was held by the company in whose service he was so long: "Dr. Palmer was greatly esteemed by the officials of the Chicago & Northwestern railway. Division Superintendent Braden said this afternoon that the news of the doctor's death had just been reported to him. 'Some six months ago,' said Mr. Braden, 'Dr. Palmer had a severe stroke of apoplexy and another stroke has doubtless carried him off. He was one of the best specialists on surgery that ever rose to prominence. He delivered regular lectures on surgery at College of Physicians and Surgeons and has lately become such an enthusiast on the subject that he even gave up a large part of his general practice that he might have more time to devote to his favorite theme. The doctor was a genial gentleman and very popular with all who knew him.'"

VARIOUS NOTES.

Paper Pumpkin Blossoms—Silk Underwear, Petticoats and Skirts.

Women who are fond of making pretty and useless decorative articles will like to know that life size double pumpkin blossoms of paper are one of the latest fancies. They are quite effective when trailed over a picture frame.

Silk underwear in sets of three pieces is again fashionable. Such in blue, cream, rose and other delicate tints is the material employed, and occasionally it is used in black, with black lace. Silk underwear is always in questionable taste, however, except in the case of petticoats, and colored lingerie is equally undesirable. Linen, cambric, batiste, lawn and muslin, pure white in tone, are the daintiest and the most refined.

The petticoat now worn under the gown is almost as long as the dress skirt itself. It is stiffened from 12 to 18 inches up and is made of silk, satin broche, flowered taffeta or alpaca and liberally trimmed.

Dress skirts continue to be plain, as indeed they must be as long as they are so wide and so heavily lined. Flat, applied trim-

SUMMER TOILET.

ming, often transverse, is the principal ornamentation employed, except on skirts of dimity, muslin and other very thin goods.

Draped sleeves are now often seen. In chiffon these sleeves are charming. Heavier goods is also thus arranged, choux of ribbon or velvet being employed to fasten the drapery.

Horizontal bands of flat trimming, such as insertion, passementerie and galloon, are seen on many bodices and skirts this season in both sheer and heavy fabrics. It is an easy and effective mode of decoration, especially for wash goods.

A picture is given of a summer gown of blue crepon. It has a bell skirt trimmed with a quille and diagonal band of ecru guipure. The blouse bodice has a capelike collar, which extends into the sleeves. The upper part has two bands of insertion and the lower part is finished with a lace flounce. The standing collar is covered with guipure and has choux of mousseline de soie. The belt is of black satin. A hat of pale blue straw is worn with this gown. A wreath of bluebells surrounds the crown, and there are two erect bows of blue and green changeable ribbon.

CORSAGES.

Make Your Waist Linings Fuller Than the Outside—Boning Bodices.

The home dressmaker should bear in mind that the lining of a bodice must be a little fuller than the outside in order to insure a perfect fit. The difference is trifling, seemingly, but is absolutely necessary. The seams should be deeply notched at all curves, after being stitched, and should be pressed open flat and the edges overcast or bound with thin, narrow ribbon. Before pressing the seams it is well to pass the hot iron over a fragment of the dress goods, to be sure that heat will not permanently change the color.

French modistes bone every seam of the bodice, although here the side seams of the back piece are sometimes left unboned on account of their extreme curve. The bones may be warmed and bent to the shape of the seam on which they are to be

BODICE.

sewed. Holes can be made in them with a heated darning needle. The silk bone casing which comes by the yard may be used, or each bone may be smoothly covered before being put on the seam with a bias strip of lining. In either case the bone must be shaved thin at each end and rounded so as not to cut through the covering.

All the so-called blouse corsages now worn, except of course shirt waists and negligee bodices, are made over a close fitting lining which holds them in to the figure, however full they may be, and keep them from looking baggy.

Tattooing, which was a popular sort of fancy work with the young ladies of the last generation, is again in vogue and is made in the form of yokes for night-dresses, corset covers, etc., as well as in shaped handkerchief borders and collars. It is often extremely pretty and delicate as well as refined looking, but as the separate rings are connected by only one thread it is an extremely short lived lace and well merits its French name, frivolite.

The sketch shows a bodice of mauve mousseline de soie with erect shirring down the shoulder seam. A fancifully cut bolero of black silk embroidered with jet covers the upper part, and epaulets of the same fashion fall over the top of the sleeves. A cravat of mauve mousseline de soie forms a collar, and a draped collar of the same material surrounds the neck. The draped mousseline sleeves terminate at the elbow. JUDIC CHOLLET.

THREES BEAT THE STRAIGHT.

How Dan Dale was Surprised by a New Orleans Poker Rule.

"I lost a big pot of money in a poker game in New Orleans some years ago that taught me a valuable lesson," said Dan Dale of Chicago to a Washington Post reporter recently. "It was a table stakes game and a very liberal one, all the participants except myself having a goodly roll. I was in great luck, however, and had accumulated a lofty stack of yellow chips when disaster befell me and pretty nearly wiped me out. In this particular hand I drew one card and made a straight. By some sort of instinct that often comes to poker players I was dead certain that my opponent had three of a kind. Everybody else had dropped out and we began raising each other until pretty nearly all my cash was up. Finally I was forced to call, and sure enough the other man displayed three aces. I disclosed my straight, and said in a friendly way as I proceeded to rake the pot, 'You play threes pretty strong down here.'"

"Yes," said he, 'but not quite as hard as you play straights.'"

"He then, to my utter astonishment, began raking the chips over to his side. Of course I made a vehement protest, but to no purpose. The other players voted me down in short order, and for the first time in my life I learned that the New Orleans sports rated three of a kind of superior value to a sequence. When you are in Rome you have to abide by the law of the Romans, and kicking is of no avail. Very sore I was with myself for not first learning the game as it is played in New Orleans, but lack of the information cost me the biggest pot for which I ever contended."

"There Is Danger in Delay."

Since 1861 I have been a great sufferer from catarrh. I tried Ely's Cream Balm, and to all appearances am cured. Terrible headaches from which I had long suffered, are gone.—W. J. Hitchcock, late Major U. S. Vol. and A. A. Gen., Buffalo, N. Y.

Too Late.

The house had been aroused by a burglar. Mr. Jones saw a man with a mask going through the pockets of his pantaloons, and, quick as thought, he shot at him, the intruder making good his escape.

"Why," asked Mrs. Jones, thoroughly awake, "what did you scare me for?"

"I saw a man robbing my pockets and fired at him."

"Well, he didn't get anything," said she, complacently.

"How do you know?"

"O, I tried 'em myself before we went to bed."—Adams Freeman.

LLOYD & SON,

A MODERN HERO.

His limbs are fixed in rigid pain,
As though in iron bands;
He cannot shift his trodden feet;
He cannot use his hands.

He dares not turn his throbbing head
Or stiffened neck. For why?
The handle of a walking stick
Would jab him in the eye.

The lagging minutes lengthen out
In famine's deadly hold.
He sits and longs, like Tantalus,
His dinner growing cold.

No hooded, grim inquisitor
Inflicts his long drawn pain.
He pays a price to suffer it,
Disdaining to complain.

Oh, sing of heroes dead in war,
But here I pledge in wine
The third class passenger who rides
On a suburban line!

HYPNOTIZED.

"There isn't anybody living who can hypnotize me."

"Don't be too sure, Leonora," said her husband. "You cannot afford to run a tilt against science."

"But I deny that it is science. What has ever been proved by hypnotism? It is foolish to argue about it, for I will not even admit that there is such a thing. The shrewd people who go about the country giving exhibitions of their power are always in collusion with some one in the audience—you know that yourself, Ned."

"Nothing of the kind," retorted Ned, as Mrs. Darl called her husband. "It is a science that is yet in its infancy, and there are only a few individuals who have the hypnotic power and are able to throw less positive subjects into a trance. But I have seen it done, and it is wonderful—wonderful."

"What did you see?"

"I saw a young man climb walls like a cat, drink milk out of a saucer, catch a mouse, and then wash his face and hands as a cat does. And when he came out of the trance he had no idea that he had done any of these things or that he had even lost consciousness."

"Hum!" said Mrs. Darl incredulously. "I don't believe a word of it. If he did all that you said he did, he was simply a conjuror. And what good can such a faculty bring to science, I should like to know? Where is the scientific value in acting like a cat or a monkey?"

"Why, don't you see, dear, it is the verification of a theory?"

"No, I do not see. And I am not sure that I would believe it if I did see it. The whole stock in trade of these hypnotizers is the power of producing an illusion. I defy any of them to hypnotize me."

"I had intended asking you to go with me to the exhibition tonight."

"And be transmogrified into a cat? No, indeed! If I make a sacrifice of myself in the cause of science, it must be for something worth while. You have yet to convince me, Ned, that what you call the hypnotic sleep is not assumed to help carry out the plan of the hypnotizer or as a means of creating a sensation. There is no one living who could by a few ridiculous passes, a stare or pressure of my thumbs make me do anything I did not choose to do."

"But you acknowledge, do you not, that a strong will can control a weak one?"

"Yes, and always could, but that is as old as the days of Adam, who was evidently in subjection to Eve. I suppose some one will say that deep sleep—which overtook our first father when his rib was taken from him was hypnotic. It would be just about as sensible."

"I have an idea," said Mr. Darl suddenly. "Suppose, since Mohammed won't go to the mountain, that the mountain comes to Mohammed. The hypnotist can come here after the entertainment, and we will invite a few neighbors in, and he can give an exhibition of his powers. How does that idea strike you?"

"Favorably, Ned. There are the Rusts, and the Pebbles and Dr. Smithly and his wife, and Cousin Fanny and her husband. You can let them know, and I will order refreshments, and we will have an evening of hypnotism. It will begin late, but we can find other amusement until your hypnotic operator comes."

Mrs. Darl had everything arranged—her house in beautiful order and herself gorgeous in a dress of ruby velvet, which was far too fine for the occasion, but was worn as a piece de resistance, she having read that velvet resisted hypnotic influence.

The neighbors and relatives came, a merry company, and the time passed in an animated discussion upon the power of hypnotism, one friend going so far in research as to visit the library and look up that wonderful story, the "House of Seven Gables," and read aloud to attentive listeners a passage from the weird history of Alice Pyncheon.

"He spoke, and Alice responded with a soft, subdued inward acquiescence and a bending of her form toward him, like the flame of a torch when it indicates a gentle draft of air. He beckoned with his hand, and rising from her chair the proud Alice approached him. He waved her back, and retreating Alice sunk again into her seat."

"She is mine," said Matthew Maule. "Mine by the right of the strongest spirit."

"Oh, that was mesmerism," said Mrs. Darl as the reading ceased.

"And what is mesmerism?" asked one of the company. "I think that it is as unexplainable as hypnotism, if it is not the same thing. Oh, here they are now! Let us hold on to our chairs, or we may be spirited away to China. I, for one, am afraid."

"I am not," said the queenly hostess as she swept forward in velvet and diamonds to meet her husband and his guest.

A pale, composed looking man accompanied Mr. Darl, and he did not seem surprised by the elegance of his hostess or flushed by the critical gaze of the company.

After the introductions were made and

conversation became general, Mrs. Darl slipped into the hall and beckoned to her husband, who immediately joined her. Then she whispered in his ear:

"If—if—by any possibility he should be able to hypnotize me, you will not let him make me do anything ridiculous?"

"My dear Leona, how can you imagine such a possibility? But if you have any fear!"

"Fear!" echoed his wife scornfully in a stage whisper. "You will see that he cannot make the slightest impression on me." And she went back to the parlor and found one of her guests climbing the piano to escape an imaginary bear that was pursuing him. A few passes and he was restored to his normal condition, looking very foolish.

There were some amusing and some perplexing exhibitions of the professor's power, then the company followed host and hostess to the dining room, where a generous spread awaited them. Mrs. Darl was rather silent. Her test would be the next one, and she watched the wiry hands of the young professor as if his secret lay in them. But they were harmlessly busy with the sandwiches. His face was quite noncommittal too. What was the power he held of reducing the will to a mere blank? She would soon know.

Back in the parlor Mrs. Darl seated herself under the brilliant chandelier.

"Not there," said the professor, but she did not intend to yield to any command of his and said quietly:

"I prefer to sit here."

"Then I cannot hypnotize you."

"Oh, you acknowledge that it is only under certain conditions that this great power can be displayed?"

"Certainly, there are conditions that must be complied with. I am positive, and you are negative, but you are a very difficult subject because you are resisting me with all your might."

Mrs. Darl looked reproachfully at her husband and said in the dumb alphabet of the married, "You have told him."

He flashed back in the same language, "I have not," and she moved in accordance with the wish of the professor and sat with her back to the light. Some of the company were removed to remote parts of the room, but a few, including Mr. Darl, stood near.

"Look into my eyes," said the professor. "Permit me." And he took her hands and pressed the thumbs gently.

"It is like being in a dentist's chair," said Mrs. Darl, with a little forced laugh. Then she attempted to rise, struggling slightly, but continued to look into the eyes of the hypnotizer until in the place of two eyes she saw 20.

Then she asserted her will and shook herself free.

"I—told—you—I—could—not—be—hypnotized," she said. Her voice sounded strange and far away. "How queer I feel! Staring so long has made me dizzy."

"Drink this," said Mr. Darl, giving his wife a glass of water.

She drank it, then rose to her feet and said she felt as well as ever.

"Where is the professor?" she asked. "I expect he has lost faith in his science."

"He was here a moment ago," said her cousin Fanny anxiously. "He thought he had succeeded in hypnotizing you, Leona. Were you not unconscious?"

"Not for one moment," said Mrs. Darl triumphantly. "He held my thumbs until they were numb—why!—where!—Ned!"

"What is it, Leona?" he asked in surprise at her peculiar tone.

"Where are my diamonds?"

There was a startled exclamation from every one present. Mrs. Darl stood there bereft of every jewel she possessed. Not a single one of her gems which had flashed on her fingers, at her throat, in her ears, was now visible. Dazed, she held up her ringless hands and said:

"Is this a joke? What does it mean? Where are my diamonds?"

"Where is the professor?"

"Search the house!"

"Send for the police!"

But the professor had left for parts unknown, and with him went Mrs. Darl's diamonds, and neither the police nor the Darls ever saw or heard of them or him again. But one thing was in his favor. Not only had he successfully hypnotized Mrs. Darl, but, as Mr. Darl admitted, he must have hypnotized the whole company in order to bring his hypnotic scheme to such a climax.

And Mrs. Darl is at last a convert to both the theory and practice of the occult science and a firm believer in the power of the hypnotic will.—Mrs. M. L. Rayne in Free Press.

BETTER THAN A GOLD MINE.

Last month I cleared, after paying all expenses, \$233.38; the month before \$186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

ALL AT SEA

But Finally Rescued from Danger.
Result of Taking a Friend's Advice.

There are thousands of women to-day entirely at sea, so to speak, as far as their ailments are concerned.

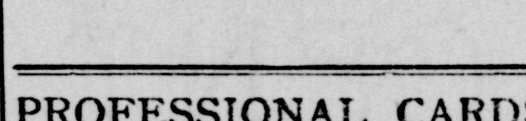

A lady friend tells the sufferer to try Lydia E. Pinkham's Vegetable Compound because it has cured her.

The following letter shows the result of that trial, and is a sample of thousands of similar cases happening daily.

"I had been very sick for a long time; doctored with many prominent physicians. They pronounced my case dyspepsia, and said there was a tendency to cancer of the womb. There was a sense of fullness and weight in stomach after meals, loss of appetite, and offensive belching of wind, dizziness, 'all gone' feeling in pit of the stomach; headache, heartburn, palpitation at times, urine high colored. A lack of interest in all things.

"The doctor's medicines gave me but little relief. I was almost in despair, when a friend advised my Compound. I took it, and am now perfectly well. I can recommend it to all women. A number of my friends and neighbors have taken it on my recommendation, and have always found relief."—Mrs. JAMES CRANKSHAW, Frankford, Pa.
